## SUMMARY

Enthusiastic Web Developer Intern at Laqshya Institute of Skill Training, where I've played a key role in developing web applications using the MERN stack. I'm skilled in crafting clean, efficient code and delivering seamless user experiences. My hands-on experience spans front-end technologies like HTML, CSS, Bootstrap, and JavaScript, along with backend frameworks. I'm committed to continuous learning and excited to take on new challenges that push my technical and creative boundaries.

## WORK EXPERIENCE

### Full Stack MERN Developer Intern

Laqshya Institute of Skill Training | June 2024 - Present

- As a Web Developer Intern at Laqshya Institute of Skill Training, I contributed to developing and enhancing web applications, working closely with cross-functional teams.
- My focus was on writing clean, efficient code to create innovative, user-friendly solutions. I leveraged my skills in HTML, CSS, Bootstrap, JavaScript, and various frameworks to deliver optimized web experiences.
- I'm eager to keep growing, both personally and professionally, while contributing to impactful projects.

## PROJECT

### Online Wedding Planner

Online wedding planner | June 2024 - Present

- Final-Year Project : Online Wedding PlannerDeveloped a comprehensive digital platform to assist couples in planning their wedding ceremony and reception.
- The platform offers tools for managing guest lists, budgets, vendor selection, and timelines. Built using HTML, CSS, PHP, JavaScript, XAMPP, and MySQL to provide an efficient, user-friendly experience for organizing weddings.
